F&J endeavors to ensure its air flow measurement instruments are accurate, reliable and maximize automation for the convenience of the air sampling specialist.

F&J has a standard business strategy to implement current technology in the development of air sampling and air flow calibration instruments.

F&J combines advances in hardware and software technologies to simplify the data collection process for the benefit of its customers.

F&J is a certified ISO 9001 and ISO 17025 air sampling instruments provider whose contributions to air sampling design ensures the air sampling specialist has the best tools to meet the ever increasing regulatory challenges in a limited manpower environment.
INTRODUCTION OF OUR PRIMARY BUSINESS

Air Flow Calibration Instruments

• High Level - World Calibrator - PC Interfaceable Series/User Customizable
  - The ultimate in end-user customization
• Mid Level - Compact Digital V.2 Series
• Level One - Mini-Calibrator Series

Common Features Include:

• Correction of Flow Rates and Volumes to a Reference T and P
• Optional correction to Ambient T and P
• Digital display of Flow, Temperature and Barometric Pressure
• Selection of Engineering units for measured and calculated parameters

Semi-automatic calibration set up of World Calibrator with F&J Digital Flow Meter Air Sampler

ISO 9001:2015

TRADITIONAL AND ADVANCED-TECHNOLOGY AIR SAMPLING SYSTEMS

• High Level - Global Air Sampling Systems:
  - The ultimate in end-user customization, data management and report writing features
• Mid Level - Digital Flow Meter Systems:
  - Automation of the air sampling process
• Level One - Analog Systems

Common Features Include:

• Rugged, Reliable and Electrically Safe
• Technology Options to match regulatory requirements
• Pricing Options to match budgets

Tel: 352.680.1177 / Fax: 352.680.1454 / fandj@fjspecialty.com / www.fjspecialty.com
Radioiodine Collection Cartridges
- TEDA Impregnated Charcoal Cartridges
- Silver Zeolite Cartridges

Common Features Include:
- Consistent Quality and Performance
- Collection Efficiency vs. Flow Rate Testing
- Rapid Delivery

Personal Air Samplers and Accessories
- Multiple Flow Ranges: 5 LPM, 12 LPM, 15 LPM
- Digital Display
- Long Lasting NiMH Battery
- Battery Capacity Indication
- Lapel Filter Holders
- Paper Filters and Charcoal Cartridges

Particulate Filter Media
- Glass Fiber, Quartz, Cellulose
- Many dimensions
- Smears (swipes)

Accurate NIST Traceable Calibration Services for F&J Digital Instrument Product Lines and Analog Instruments of all manufacturers
Company Profile

Company Name: F&J SPECIALTY PRODUCTS, INC.
President: Frank M. Gavila
Established: 1979
Number of Employees: 23
Headquarters: Ocala, Florida USA
Website: www.fjspecialty.com

Foreign Distribution Network

Europe
- Spain
- Denmark
- Russia
